

VP Solution Advisory EMEA, Icertis

MARKUS KLEIN

Freising, Bavaria, Germany | +49 155 630 90 736 | m_klein@web.de

PROFILE

Solutions leadership executive with 25+ years building, scaling, and driving high-performing presales organizations across EMEA. Track record of combining strategic leadership with hands-on engagement in key customer opportunities — from rebuilding a 30+ person EMEA Solutions Engineering organization post-acquisition at Broadcom/VMware to developing the regional value-based selling methodology that became standard practice across Citrix Central Europe. Proven partner to Sales, Marketing, Product, and Customer Success in aligning technical strategy with revenue growth, engaging C-level stakeholders on complex, multi-stakeholder enterprise platforms. Experienced operating as a senior member of EMEA leadership teams with full accountability for strategic contribution and execution of the Solution Advisory function.

CORE CAPABILITIES

- EMEA Solution Advisory organization leadership and scaling
- Strategic leadership combined with hands-on engagement in key customer opportunities
- Cross-functional partnership with Sales, Marketing, Product, and Customer Success
- C-level stakeholder engagement on complex, multi-stakeholder enterprise platforms
- Second-line leadership and coaching of regional leaders and managers
- Post-acquisition organization rebuild and change management
- Revenue growth through presales excellence and pipeline discipline

PROFESSIONAL EXPERIENCE

Regional Executive Leader, Solutions Engineering EMEA

VMware by Broadcom | Nov 2023 – Jun 2025 | EMEA Partner & Commercial Solutions Engineering

- Led and scaled a 30+ person EMEA Solution Advisory organization post-acquisition; re-established team structure, coverage model, and operating playbook within months.
- Delivered 200% of target in the first year post-rebuild, restoring sales-engineering partnership and driving pipeline contribution across the region.
- Senior member of the EMEA Partner & Commercial leadership team; partnered with Sales, Marketing, and Customer Success to align technical strategy with revenue growth.

Senior Director, Solutions Engineering Central Europe

VMware | Sept 2014 – Oct 2023 | DACH, Eastern Europe, Russia, Israel

- Led 180 engineers and 20 second-line leaders across a multi-country region; maintained <5% attrition in a highly competitive presales talent market.
- Combined strategic leadership with hands-on executive engagement in key enterprise deals, acting as senior technical authority for the region's most complex opportunities.
- Partnered with Sales, Product Management, and Customer Success to align solutions strategy with regional revenue targets.

Director, Systems Engineering Central Europe

Citrix | Apr 2000 – Aug 2014 | Central Europe (progressed from Systems Engineer to Director)

- Built and led the Central Europe presales organization from individual contributor roots to a structured regional function over 14 years.
- Developed a value-based demonstration and selling methodology adopted as the standard playbook across the region — driving consistent engagement quality and measurable pipeline impact.

EXECUTIVE LEADERSHIP APPROACH

I lead first- and second-line through trusted managers who own their sub-teams, which scales coaching impact while keeping attrition low even through organizational disruption. At the same time, I remain directly engaged in key customer opportunities — not as a bottleneck, but as a senior resource that unlocks deals where executive presence and technical credibility matter. I hold teams accountable to both revenue contribution and solution quality at the executive level.
