International Presales & Solution Consulting Leader | Scaling  
High-Performance SE Teams | Driving Enterprise Revenue | GTM  
Strategy | Enterprise Software • Cybersecurity • SaaS • Cloud • AI  
Freising, Bavaria, Germany

## Summary

I build and scale high-performance Solution Consulting and Presales organizations that directly drive revenue, win rates and enterprise growth. Over the past 20+ years, I have led international Solution Engineering and Presales teams across EMEA at VMware and Citrix, partnering closely with Sales, Product, and Executive Leadership to transform technical excellence into measurable business impact. My focus has always been simple: turning complex technology into customer value and predictable revenue. Selected impact: ✓ Led and scaled global SE organisations of 100+ consultants and leaders ✓ Supported €1.000M+ enterprise revenue responsibility ✓ Increased win rates by 20% through value-based selling frameworks ✓ Built scalable career framework adopted across multiple international regions ✓ Enabled double-digit pipeline growth through stronger technical positioning ✓ Developed next-generation leaders and management pipelines I combine strategic thinking with operational execution. I design solution consulting functions that are not reactive support units, but proactive growth engines aligned with go-to-market strategy. What I'm passionate about: • Building strong, trusted teams • Coaching technical talent into business leaders • Aligning Product, Sales and Engineering • Driving predictable enterprise outcomes • Build an open, trusted environment where everyone thrives Currently focused on: Global Head of Solution Consulting / Presales Leadership roles and Interim Executive engagements where I can help organisations scale, transform, and accelerate growth. If you're looking to elevate Solution Consulting into a true strategic differentiator, let's connect.

---

## Experience

Presales Leadership Advisor & Interim Executive  
July 2025 - Present (1 year 1 month)  
Freising

I advise technology companies on building and scaling high-performance Presales and Solution Consulting organisations.

Engagements cover: interim leadership, go-to-market strategy, presales team design, value-selling frameworks, and coaching of SE managers.

If your Presales function needs to move from reactive support to a proactive growth engine — let's talk.

## VMware by Broadcom

### EMEA Partner & Commercial Presales Lead

November 2023 - July 2025 (1 year 9 months)

Munich

Built the newly established EMEA Partner and Commercial Solution Engineering

team from the ground up, leading ~30 Partner SEs across all EMEA regions.

#### Key Achievements:

- Re-established the VMware by Broadcom channel in EMEA — delivered 200% of target in the first fiscal year after the Broadcom acquisition
- Launched the EMEA Knights program, activating the strongest VMware consultants across the partner ecosystem
- Standardized go-to-market execution with customer assessments and solution workshops across the partner base
- Built team cohesion from zero via role alignment, shared goals and regular all-hands formats

## VMware

### Senior Director Systems Engineering Central EMEA

September 2014 - November 2023 (9 years 3 months)

Munich

Led the VMware Solution Engineering organization across Central and Eastern Europe (later DACH + Israel). Managed a team of 100+ architects and presales

professionals, with dotted-line responsibility for 80 specialists across EMEA.

#### Key Achievements:

- Drove continuous revenue growth >10% YoY across the region
- Reduced team attrition to <5% via a career development framework adopted by 700+ SEs across EMEA
- Transformed presales from product-focused to multi-solution SaaS model,

improving customer success and adoption rates

- Established Design Thinking as a pipeline-generation method in the VMware Sales organization
- Delivered C-level trainings; VMware press spokesperson and keynote speaker at major industry events (audiences 500–1,000+)
- Built and led EMEA-wide Subject Matter Expert groups across key technologies

## Citrix Systems

Director Systems Engineering Central Europe

April 2000 - August 2014 (14 years 5 months)

Greater Munich Metropolitan Area

Joined as a Solution Engineer and progressed to Director, building one of the most successful SE organizations in Central Europe.

As Director Systems Engineering (2005–2014):

- Expanded the DACH SE team from 15 to 30+ members, attrition <5%
- Delivered consistent annual growth >20%, meeting revenue targets every year
- Transformed the team from product-focused to solution-oriented, improving client satisfaction and deal sizes, establishing true enterprise sales
- Keynote speaker at major industry events, audiences up to 1,000 attendees
- Represented Citrix in press briefings and executive customer conversations
- Built SE teams from scratch in new regions and for new solution areas

## Schuhmann Unternehmensberatung

Datawarehouse Consultant

May 1998 - March 2000 (1 year 11 months)

Frankfurt Rhine-Main Metropolitan Area

Building datawarehouse and MIS systems for a large transportation company was the focus of my time as a Consultant.

## T-Systems International GmbH

Consultant

July 1996 - March 1998 (1 year 9 months)

For T-Systems I ran IT projects like the first Windows Client & Server Roll-out for big public customers.
